2020 Offer

Develop Creativity and Creative Thinking

The Start Studio is a community Interest company set up in 2017 to develop creative activity and raise its value in primary teaching and learning.

We aim to develop creativity and creative thinking; the capacity to imagine, conceive, express, or make something that was not there before, through visual arts.

Our offer has been designed with the DfE Standard for Teachers Professional Development and Learning.

Our 5 key aims are that :

-  Creativity is increasingly prioritised by Senior Leaders.
-  Sessions have a focus on improving and evaluating pupil outcomes.
-  Training includes collaboration and expert challenge.
-  Information is underpinned by robust evidence.
-  Development is sustained over time.

We can support your school in skills development and act as a supportive partner.

We understand each setting has diverse and multiple needs and our support would consider your individual motivation for developing, as well as the schools wider aims.

Dates for funded sessions in our studio are now fixed for 2020. These are practical introductory sessions that support teachers in specific areas.

We will, in partnership, cultivate and embed learning through the arts.
